All members of all three Bedford Volunteer Teams will be receiving this newsletter.

This newsletter is intended to provide needed coordination among the teams and it is expected it will keep members informed of our emergency planning successes and challenges, resources and needs (equipment, trainings, opportunities and more).

STATUS REPORT

2009/2010

SEASONAL & H1N1 VACCINE CLINICS

From Dave Black, Public Health Director & Operations Supervisor

First and foremost, I ask your indulgence and apologize if on the next page (page 2) I have omitted or have failed to recognize anyone who has assisted us in the past few months.

In this very unique/novel year we have forged a fabulous new partnership with our two local based Pediatric Practices. We now have a stronger foundation from which we may move forward in the future.

It is important that I share with you the data on the additional pages (pages 3 and 4). We simply could not have accomplished the work without your efforts.

I appreciate everyone's community spirit and willingness to assist, a.k.a. "neighbors helping neighbors." THANK YOU EVERYONE!

From Nurse Judi Jelloe, RN, Community Nurse & Clinical Supervisor

Many thanks for making the Flu Clinics successful, with a little fun thrown in. Given the fact that this past flu season was confusing and frustrating to everyone involved, your wonderful help made it more bearable. As always, the nurses showed their remarkable ability to adapt to any situation, as well as all the volunteers working on registration and crowd control. I believe that organization was the key to all the successful clinics. We all dealt quite well with the double whammy of Seasonal and H1N1 Flu. It certainly was a challenge! Again, Thank you for all your hard work.
